Hazer Group Ltd's Geoff Pocock outlines commercialisation strategy at Spotlight CEO Session

Hazer Group Ltd (ASX:HZR) is commercialising the Hazer Process, a process for manufacturing hydrogen gas and high-purity graphite from natural gas and iron ore.

Hazer's technology has the ability to disrupt the hydrogen and graphite markets, both exhibiting strong growth and generating annual sales of well in excess of US\$100 billion.

Hydrogen is a clean energy source and currently accounts for less than 5% of global production.

This week Geoff Pocock, managing director, joined the Proactive Investors Spotlight CEO Session in Sydney, outlining the company strategy to investors.
