## Rainbow Rare Earths on track to ship first concentrate by year-end

Martin Eales, chief executive of Rainbow Rare Earths Ltd (LON:RBW) tells Proactive they're expecting run-of-mine (ROM) ore production at their Gasagwe asset will be in the range of 3,000 to 4,000 tonnes.

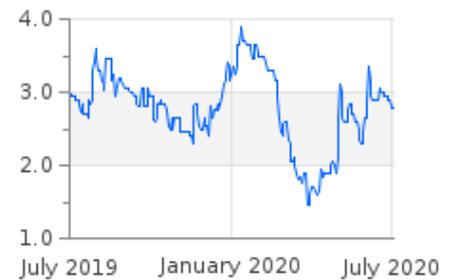

The production guidance was issued alongside the company's results for the year to the end of June.

The completion of construction and commissioning of the plant is expected in the coming weeks, which should allow Rainbow to meet its target of shipping the first concentrate before the end of the year.
