## Accelerate Resources working on 'some of the most prospective geology in the world'

Accelerate Resources (ASX:AX8) executive director Andrew Haythorpe updates Proactive Investors on the progress of three diamond holes being drilled in the Thomas Creek cobalt-copper-gold prospect at the company's flagship Mount Read Project in Western Tasmania.

"That'll give us the information and the basis to then have a deeper look in terms of doing a down-hole EM probe and survey. And in the meantime the drill rig will go to the north to the Henrietta [cobalt-nickel-copper] prospect, which we've got some ground crews on now," says Haythorpe. There is a second target to the north of Mount Read with a working name of Young Henry that will also be drilled in due course.
