Azumah Resources hits high-grade gold zones 580 metres below surface at Bepkong deposit

Azumah Resources Limited (ASX:AZM) managing director Stephen Stone and joint venture partner Ibaera Capital's John Hronsky update Proactive Investors on the extended gold mineralisation discovered at the explorer's Wa Gold Project in Ghana. Recent drilling at the Bepkong deposit delivered results including 15.5 metres at 5.17 g/t gold from 401 metres and deep gold such as 2.5 metres at 3.55 g/t from 710.5 metres. Deep mineralisation at the Bepkong deposit is not included in the Wa project's current 2.5 million ounce JORC resource. Stone says the drill rig has been shifted to the company's bigger Kunche deposit, 2.5 kilometres south of Bepkong.
